## Languages

## Profile

Every night when I'm sat in front of my monitor I'm excited about what I'll learn next. Graphic designer and web development is my career goal as well as a hobby. I easily grasp new ideas and technologies. My main goal is to constantly gain experience, so I could build awesome projects that others will enjoy.

## Work Experience

2020 - present

### Freelance Web Developer

The scope of my work includes WordPress based websites with custom CSS and JavaScript code and also WordPress fixes as well as HTML websites. I get to the clients via recommendation or Fiverr
